

LUDF FOCUS DAY

THURSDAY 21 FEBRUARY 10.15AM-1PM
ENTER VIA ELLESMERE JUNCTION ROAD

Attracting and retaining the best quality people for the dairy industry

- How can we go about it?
- Initiatives being considered at LUDF.
- What do the new generation of farm staff require.
- Seeking on farm and cowshed efficiencies.

Passing your Environmental audit with flying colours

- The environmental audit, what was involved?
- LUDF "A" score. What was needed to achieve it.
- Preparing for your environmental audit, what can you do?

Green House Gas Emissions

- Quantifying the challenge and impact on the dairy industry.
- What are the facts and how big are the hurdles?
- What can farmers do about it with the current science available.

LUDF On Farm

- Production update; Fed 11 kgDM/cow season to date of silage and with 500 kgMS/cow in our sites
- Dealing with a Staph infection
- Irrigation Investment; improved environmental outcomes and irrigation efficiency.
- Cost structures, how are we tracking
- No Bull; mating plan and in calf rates
